

PLUG IN . . .

TO THE INTERNATIONAL AMATEUR RADIO COMMUNITY

Whether your interests are talking around town, around the world, or tinkering with electronics, the Lakehead Amateur Radio Club offers a learning program leading to an amateur radio licence from the Department of Communications.

Topics include basic electronics, antennas, regulations, operating procedures, and propagation. Weekly evening classes include many hands-on demonstrations and guest speakers.

For more information, attend our introductory lesson at: 7:00 p.m., Thursday October 22, 1992, room 210 McIntyre building, Confederation College.
